

Training Calendar

2016-2017

**National Institute of Rural Development
and Panchayati Raj**

ABOUT THE CALENDAR

The Training Calendar provides information about the programmes to be organized by NIRD&PR during the year 2016-2017. The programmes are mainly designed for senior and middle-level officers of the Central and State Government Departments dealing with Rural Development programmes, elected members of Panchayati Raj institutions, faculty of academic institutions, professionals from banks, NGOs and other development organizations.

With the restructuring of NIRD&PR based on recommendations of Prof. Alagh Committee constituted by MoRD, Schools and Centers were established and the training perspective and the concomitant programmes were planned to reflect in greater measure the emerging rural development scenario. With a view to ensuring that the programmes are demand driven, training need assessment was carried out with various stakeholders. Consultations were held with the programme divisions of the flagship programmes of the Ministries of Rural Development and Panchayati Raj and other institutions such as the SIRDs. The deliberations of the workshops, research findings and feedback from the training programmes of the Institute were also factored in preparation of the Calendar.

The endeavour of the Institute is to generate ideas and feedback for policy making on rural development and to develop necessary competencies for effective and efficient programme management through workshops, seminars and training and research programmes. As part of the Institute's efforts to reach out to larger number of stakeholders and more importantly to strengthen capacity building at State and sub state levels, programmes have been planned in the form of off-campus and networking programmes. Besides, a series of Training of Trainers programmes have been designed for the faculty members of SIRDs and state and district level resource persons and master trainers for capacity building of officials of various flagship programmes. As in the previous years, the Institute's perspective aims at sharing Indian experiences with developing countries through international training programmes.

The overall aim of the programmes is to facilitate sustainable rural development integrating economic and environmental dimensions through empowerment of rural people. The focus is on effective planning and management of on-going rural development flagship programmes. The main themes include convergence of various development programmes, rural livelihoods and micro enterprises, HRD, social development, social audit, good governance, rural credit management, drinking water and sanitation, Swachh Bharat Abhiyan, Natural Resource Management, gender budgeting, applications of GIS and ICT technologies for rural development, etc. Specialised programmes to cater to the specific needs of new initiatives like NRLM and DDU-GKY were designed. With the added focus on panchayati raj in the perspective of the Institute and in the context of bottom up approach and decentralized planning, programmes have been designed on Gram Panchayat based Development Plans. Another feature of the Calendar this year is Collaborative programmes with Institutions of repute so as to draw their expertise for the benefit of rural development professionals. Keeping in view the policy advocacy mandated to the Institute, workshops, seminars and consultations are on offer on themes of topical interest such as preparation of Vulnerability Index, Changing agrarian relations, Agriculture innovations, Corporate social responsibility, Social accountability mechanisms, Decennial performance assessment of MGNREGS, Networking for Leveraging Institutional Synergy, innovations in rural technologies among others. Besides, training in the form of exposure visits to 'best practices' in the field and institutions form an important component of the Calendar.

NIRD&PR proposes to organize 1441 programmes during the year 2016-2017 that include Training Programmes, Training of Trainers (ToTs) Programmes, Workshops, Seminars, Conferences, Colloquia, Regional and Off-campus Training Programmes, Networking programmes at SIRDs and International Training Programmes sponsored by the Ministry of External Affairs, GoI, namely NIRD&PR-ITEC/SCAAP Collaborative Training Programmes and NIRD&PR-CIRDAP Collaborative Programmes sponsored by the MoRD, GoI.

The Programme Directors will be sending invitation letters and the brochure of each programme at least two months before the commencement of the programme. The brochure gives details of the programme objectives, content, methods, clientele group, programme team and information on NIRD&PR. For more information, Programme Directors or the Centre for Research and Training Coordination and Networking (CRTCN), NIRD&PR, Hyderabad may be contacted.

NIRD&PR's VISION

- The vision of NIRD&PR is to focus on the policies and programmes that benefit the rural poor, strive to energise the democratic decentralisation processes, improve the operation and efficiency of Rural Development personnel, promote transfer of technology through its social laboratories, Technology Park and create environmental awareness

NIRD&PR's MISSION

- To examine and analyse the factors contributing to the improvement of economic and social well-being of people in rural areas on a sustainable basis with focus on the rural poor and the other disadvantaged groups through research, action research, consultancy and documentation efforts.
- To facilitate the rural development efforts with particular emphasis and focus on the rural poor by improving the knowledge, skills and attitudes of rural development officials and non-officials through organising training, workshops and seminars.

ABOUT NIRD&PR

National Institute of Rural Development and Panchayati Raj continuously strives to serve the nation through training, research, action research and consultancy activities for development of the rural poor and enhance their quality of life. It aims to:

- (I) organise training programmes, conferences, seminars and workshops for senior level development managers, elected representatives, bankers, NGOs and other stakeholders.
- (ii) undertake, aid, promote and coordinate research.
- (iii) study functioning of the Panchayati Raj Institutions and rural development programmes across the States.
- (iv) analyse and propose solutions to problems in planning and implementation of the programmes for rural development; and
- (v) develop content and disseminate information through periodicals, reports, e-modules and other publications.

Considering the challenges faced by the Government in the development of a large section of rural poor across the country through its various policies and programmes, NIRD&PR as apex training Institute in the field of rural development has to cater to the training and capacity development needs of a large clientele. To achieve these objectives, a nation-wide network of training infrastructure has to play its rightful role. The clientele include a large number of elected PRI representatives at different levels, rural development functionaries, NGOs, Bankers and other stakeholders. Capacity building of rural development personnel and elected representatives is an intrinsic part of the entire rural development process. It helps to improve their managerial skills while keeping them abreast with the latest changes in strategies, government policies and programmes to augment their knowledge and working efficiency resulting in strengthening of the delivery mechanism for the benefit of all the stakeholders. The challenge is huge and NIRD&PR has been able to play its role in the country's rural development initiatives by facilitating qualitative changes in programmes implementation through a process of training, research, action research, consultancy, information dissemination and information building on a continual basis. This has enabled the Institute to emerge as the National Apex Institute for capacity development in the area of rural development.

In its continuous effort to develop managerial skills of functionaries in rural development process, the Institute started one-year fully residential Post Graduate Diploma in Rural Development Management (PGDRDM) and two one-year PG Diploma programmes in Distance Mode namely, Sustainable Rural Development (PGD-SRD) and Tribal Development Management (PGD-TDM).
