## FOREWORD

NIRDPR facilitates rural development through research, creation of knowledge base, and capacity building of rural development officials and development practitioners by organising research-driven capacity building programmes, workshops and Seminars. Training and Capacity Building has been the core strength of NIRDPR for the past 64 years. NIRDPR believes that institutional partnership is the key for imparting need based training programs for ensuring greater synergy of efforts and maximizing use of knowledge resources. I am glad to inform that in 2022-23, the institute signed MoU with 26 institutions at national and international level, to organise collaborative programs on emerging areas of focus and reaching-out the target groups.

In order to identify the specific capacity building and training needs of the stakeholders and deliver demand driven programs, a focused approach was adopted in preparing the Training Calendar for 2023-24. The key focus areas of training for 2023-24 were finalized based on various research findings, workshops organised on various thematic areas, feedback from participants, requirements received from programme divisions of Ministries and State Governments. The internal brainstorming meetings with faculty of NIRDPR resulted in preparing a comprehensive training calendar.

I am glad to inform that for the academic year 2023-24, NIRDPR proposes to organise nearly 2900 programs including trainings, workshops, seminars, conclaves and exposure visits covering wide range of stakeholders in Rural Development & Panchayati Raj. I appreciate the efforts of CRTCN Team in bringing out the Training Calendar 2023-24 in a systematic manner and I am sure that this calendar will help the clientele to choose and participate in relevant programs of NIRDPR in order to develop their capabilities and deliver their services effectively in their respective States/UTs.
