

Institutionalisation of SDGs through Panchayats to manage COVID-19 crisis

(organized by CPRDP&SSD in coordination with MGSIRD&PR, Madhya Pradesh)

The 2030 Agenda for Sustainable Development is a plan of action for 'people, planet and prosperity', with 17 goals and 169 targets. With its emphasis on poverty eradication, food security, health, education, gender equality, access to water and sanitation and employment, SDGs necessarily remain connected to integral goals of rural development. Considering the importance of rural development in achieving SDGs by 2030, it is appropriate to highlight that Panchayati Raj Institutions (PRIs) with their emphasis on inclusive development, ensuring social justice and deepening democracy will have to play a significant role in realising the SDGs. Further, many of the SDGs targets are within the purview of the 29 subjects devolved to the Panchayats under the Eleventh Schedule. Besides, the Gram Panchayat Development Plan (GPDP) makes necessary institutional arrangements for planning inclusive development of Panchayats to achieve the SDGs. Integrating the GPDP with the SDGs will provide opportunity in achieving the goals which are directly or indirectly linked to Panchayats. Promoting greater understanding about the SDGs among the Master Resource Persons and Panchayat Functionaries will help the Panchayats to link planning with the measurable targets to achieve holistic development.

Programme Objectives:

01

Orienting the participants on the goals and targets of SDGs and enabling them to integrate the same into their respective fields, especially managing Covid-19 crisis.

02

Developing the capabilities of the participants to understand the role of Panchayats to achieve holistic development through SDGs.

Institutionalisation of SDGs through Panchayats to manage COVID-19 crisis

(organized by CPRDP&SSD in coordination with MGSIRD&PR, Madhya Pradesh)

Programme Contents:
