

**E-Training Programme
on
Community Based Approaches For Sustainable Livelihoods
and Climate Resilience Adaptation Practices (SLACC – 2)**

**Centre for Natural Resource Management,
Climate Change and Disaster Mitigation (CNRM, CC&DM)
National Institute of Rural Development and Panchayati Raj,
(Ministry of Rural Development, Govt. of India)
Rajendranagar, Hyderabad-500 030, Telangana, India.**

Background:

Climate change has adversely affected the agriculture and livelihoods of the rural people. We need rapid strides and higher quality science to overcome the challenges and management of the natural resources to the climate change. There are various adaptation and mitigation strategies tested and validated for the management of the resources. Nonetheless, adoption of these technologies as climate resilient practices is limited. A special purpose vehicle/framework for driving these practices is essential to improve the adoption at community level.

Context:

The National Institute of Rural Development and Panchayati Raj (NIRDPR) have developed certificate training programme on Sustainable Livelihoods and Adaptation to Climate Change (SLACC) for first of its kind to train the Community Resource Persons (CRPs) and Mission Staff. The SLACC programme has trained 200 CRPs and 120 Mission Staff as master trainers from Madhya Pradesh and Bihar during 2019-20. A package of 25 technology interventions were prioritized for farm level activities in climate resilience. These aim to reduce the farming cost, improve yield and income, profitability, empower women and generate employment. NIRDPR has developed the training module in collaboration with CRIDA- Central Research Institute of Dry land Agriculture, Hyderabad as knowledge partners.

Objectives

- ♦ To orient about the climate change and variability, its impacts and their linkages for the need of adaptation strategies
- ♦ To create awareness on the climate change adaptation planning process and mapping the interventions to the risk
- ♦ To generate knowledge on the crop and livelihood based climate resilient interventions

Content of the Training Programme:

The Training Programme focuses on Production, Technology, Ecology and Financial related aspects and their related Case study discussions.

About the Training Programme:

In view of the Corona pandemic the NIRDPR, Hyderabad would like to conduct E-training programme to Mission Staff, Line Department officers, SIRDs, NGOs, etc with a duration of 5 days in English (Daily 4 Hrs). Each batch consists of 50 participants.

Training Dates: 24th to 28th August, 2020 (5 days)

Date & Time	Sessions (Crop & livelihood based)
(24.08.2020) 1000-1200 hrs	Climate change and variability concept and its impacts on water, agriculture and allied sectors
1400-1600 hrs	Climate change adaptation planning (CCAP)
(25.08.2020) 1000-1200 hrs	Adaptation practices in rice (DSR, MSRI, AWD, etc)
1400-1600 hrs	Weather Based agro advisory services (WBASS)
(26.08.2020) 1000-1200 hrs	Soil health and nutrient management
1400-1600 hrs	Alternate livelihoods (Azolla, Mushroom, Kitchen Garden)
(27.08.2020) 1000-1200 hrs	Livestock and dairy farming: Fodder crops production and management
1400-1600 hrs	Custom Hiring Centre
(28.08.2020) 1000-1200 hrs	Crop insurance
1400-1530 hrs	Convergence of flagship programs
1530-1630 hrs	Quiz, Feedback, evaluation and certificate provision.

Registration:

The participants can be registered online by using the link by 20th August, 2020 (<https://forms.gle/GG9G12Hp1nujZcWN8>)

About NIRDPR: The National Institute of Rural Development and Panchayati Raj (NIRD&PR), an autonomous organisation under the Union Ministry of Rural Development, is a premier national centre of excellence in rural development and Panchayati Raj. Recognized internationally as one of the UN-ESCAP Centres of Excellence, it builds capacities of rural development functionaries, elected representatives of PRIs, bankers, NGOs and other stakeholders through inter-related activities of training, research and consultancy. The Institute is located in Hyderabad in Telangana state. The vision of NIRD&PR is to focus on the policies and programmes that benefit the rural poor, strive to energise the democratic decentralization processes, improve the operation and efficiency of rural development personnel, promote transfer of technology through its social laboratories, Technology Park and create environmental awareness. As a “think-tank” for the Ministry of Rural Development, NIRD while acting as a repository of knowledge on rural development would assist the Ministry in policy formulation and choice of options in rural development to usher in the changes.
