ABOUT THE PROGRAMME

Rural finance refers to financial transactions related to both agricultural and non-agricultural activities that take place among households and institutions in rural areas. Providing rural finance on a large scale can catapult the pace of economic development in the country. Late 19th century concerns with rural unrest and indebtedness in India led to a policy approach involving moneylender regulation and replacement of moneylender finance through provision of institutional credit in various forms. Introduction of various Govt. sponsored programmes/schemes culminated in substantially reducing the poverty. There is also a need to increase high value advances by banks in rural areas for the overall rural development and also achieve the PSL targets. This will help in gaining momentum to accelerate percolation of benefits of growth to the rural areas.

OBJECTIVES OF THE PROGRAMME
