

WASH - Champion Trainers' Club

Being in the WASH sector, we are sure you are aware of the rural development priorities of Government of India. They are: rural water supply, management of solid waste and wastewater, GPDP, convergence and prudent utilization of 15th FC funds. The key to accomplishing this mission lies in massive training and capacity building requirements at various levels.

Perhaps, you are already rendering your service as a trainer in one or more of the areas mentioned above. From NIRDPR, we would like to know your willingness and self-assessed competence to serve as a recognised trainer in your State, at SIRDs, and at NIRDPR campuses in Hyderabad and at Guwahati. You may be good at handling trainees at one or more levels, such as State, District, Block, or at Village level.

We invite you into the WASH Champion Trainers' Club - if you are willing to be one. All you need is knowledge of WASH sector; have the fervour for continuous learning and self-improvement - as a Professional WASH Trainer. Secondly, you state that you are willing to serve as trainer at a level you feel comfortable in, in order to share your knowledge to the officers and elected representatives working at various levels. With the kind of trainers' training that the NIRDPR involves you in, you shall hone your skills towards becoming a Champion Trainer in WASH Sector.

This exercise is being done for there is a great need for qualified trainers at various levels in the WASH sector. At the end of this brochure, you find a google form that has a few questions on your personal particulars and professional standing. It will help you register into the Champion Trainer's Club as well as give us ideas on the next courses of action.

Before you click the googleform, let me clarify that (i) there is nothing compelling that you should join this Club just because you attended a training programme conducted by NIRDPR sometime in the past; (ii) if you feel that there is someone who you think is really good at WASH related themes and is a champion trainer already, you can forward this googleform so that he/she joins our Club. No matter he/she is from the government / NGO / CSR or recently retired from service.

There you go. Click the link, and just save once you complete filling in. We shall get back to you soon. (<https://tinyurl.com/rsztvht6>)
