

National Institute of Rural Development & Panchayati Raj
Rajendranagar, Hyderabad - 500 030

**2nd International Conference on Water and Wastewater
at NIRDPR, Hyderabad**

(19 – 20 February, 2020)

The NIRD&PR, Hyderabad shall be hosting 2nd International Conference on Water and Wastewater at NIRDPR campus, Hyderabad. The programme will be held on 19th and 20th February, 2020. We expect to have more than 30 delegates from the USA and Germany to participate in this conference, besides Indian delegates from RD&PR, SBM-G, and SIRDs from various states. This is done in continuation of the 1st International Conference on Water and Wastewater conducted last year (2019) by a team of wastewater professionals from the US (www.wastewatermanagement.org).

The 2nd International Conference has invited more than 30 international experts on this important subject, which is timely for India as the Swachh Bharat Mission-G has taken on the direction of managing solid waste and wastewater at Gram Panchayat level. Thus, the deliberations and outcome of this International Conference is expected to throw open the expertise, technologies, innovations, and opportunities available in this sector.

Those working in the water and wastewater sector willing to participate may contact the organisers. Please send in your nomination letters on or before 17th February 2020 with full contact details, your relevance to this conference and how you can contribute. We welcome also the private partners who have technologies for display or innovations to share during the conference.

Dr R Ramesh
