on

Sustainable Livelihood and Adaptation through Climate Change

27th - 28th March 2023

1. Venue: National Institute of Rural Development & Panchayati Raj, Hyderabad-500030

2. Duration: **27-28 March 2023 (Two Days)**

3. About NIRDPR, Hyderabad:

The National Institute of Rural Development and Panchayati Raj (NIRD&PR), an autonomous organisation under the Union Ministry of Rural Development, is a premier national centre of excellence in rural development and Panchayati Raj. Recognized internationally as one of the UN-ESCAP Centres of Excellence, it builds capacities of rural development functionaries, elected representatives of PRIs, bankers, NGOs and other stakeholders through inter-related activities of training, research and consultancy functions.

4. About the Programme:

Globally, weather and climate-related risks, which potentially cause loss and damage, have increased dramatically over the past few decades. The most recent climate projections indicate a significant increase in the frequency, duration and intensity of extreme weather events as well as severe slow-onset climate related changes. These pose a growing risk to sustainable development of communities and countries. Internationally there is an increasing recognition that adaptation and mitigation may not be enough to manage the impacts of climate change and both climate science and the international climate negotiations stress the urgent need to develop and implement effective climate risk assessment and management approaches in order to avert, minimize and address losses and damages.

Since Ministry of Rural Development implements flagship programmes like MGNREGS, WDC-PMKSY, NRLM etc for climate change adaptation related practices, the implementing officials need to be oriented on securing livelihood in rural areas through climate change adaptations through existing programmes and initiatives,

5. Objectives of the Programme:

- To discuss the current practices adopted for Climate Change Adaptation and mitigation strategies under different flagship programmes being implemented in rural areas.

- To equip the participants on Climate Change Adaptation and mitigation strategies as part of their Development Plan for eco-system regeneration, enhanced productivity, Natural Resources Management, services and livelihoods.

6.0 Programme Content:

- Salient features of rural development programmes for climate change adaptation and mitigation.
- Climate Change Impacts on Agriculture, Horticulture, Water, Food, Livestock, Livelihoods, Gender risk and Need of Adaptation Strategy
- Climate Change Adaptation Tools
- Water Management, Rain Water Use Efficiency, Groundwater Management, Water Budgeting and Demand Side Management
- Weather based agro-advisory services to reduce the climate losses

7.0 Participants:

- Officers responsible for implantation of Climate resilient agriculture, Watershed Development -PMKSY, NRLM etc leading to climate change adaptation and sustainable livelihood
- Community Level Resource Persons and Master Trainers

8.0 Programme outcomes:

The programme will equip the participants on strategies for climate change adaptation and mitigation as part of livelihood security on sustainable basis in rural areas

9.0 Programme Team of CNRM, CC & DM, NIRDPR, Hyderabad:

SI No	Name & Designation	Mobile No	e-mail id
1.	Dr K Krishna Reddy Associate Professor	9676365553	Kkrishnareddy.nird@gov.in
2	Dr Ravindra S Gavali Professor & Head	9371156628	ravindrasg.nird@gov.in
3.	Dr Subrat Ku Mishra Associate Professor	9937309601	subratm.nird@gov.in

10. Course Fees: No charges or fees for the course to attend. However, travel expenses to be borne by the nominating organization. *Boarding and Lodging arrangements shall be done at the NIRDPR Hostel for the participants.*
